

**1. Identify all the different components you know in the following motherboards.**Number 1

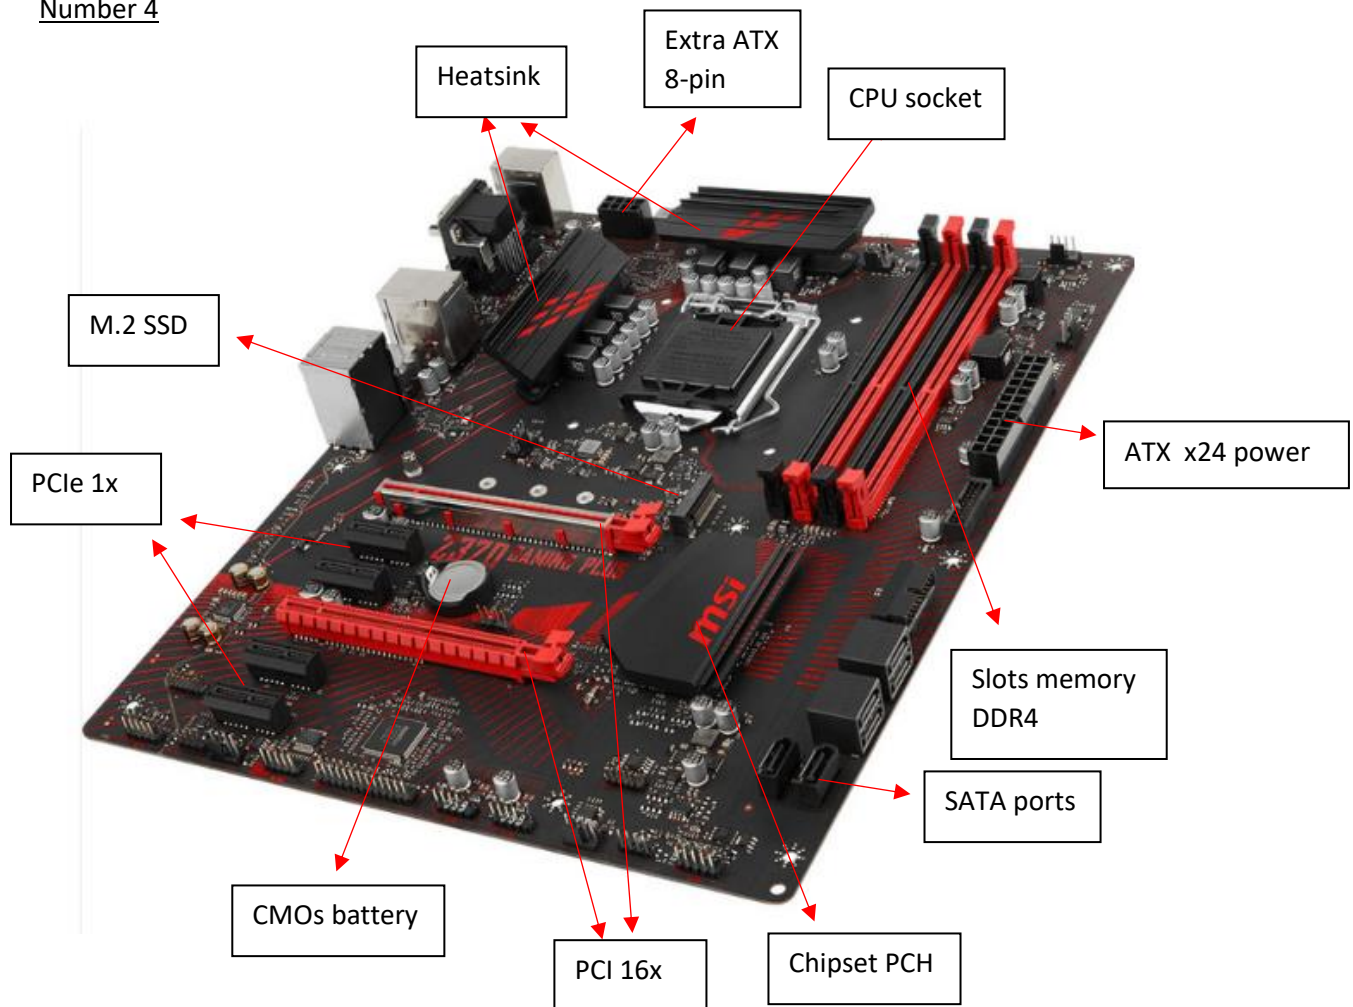

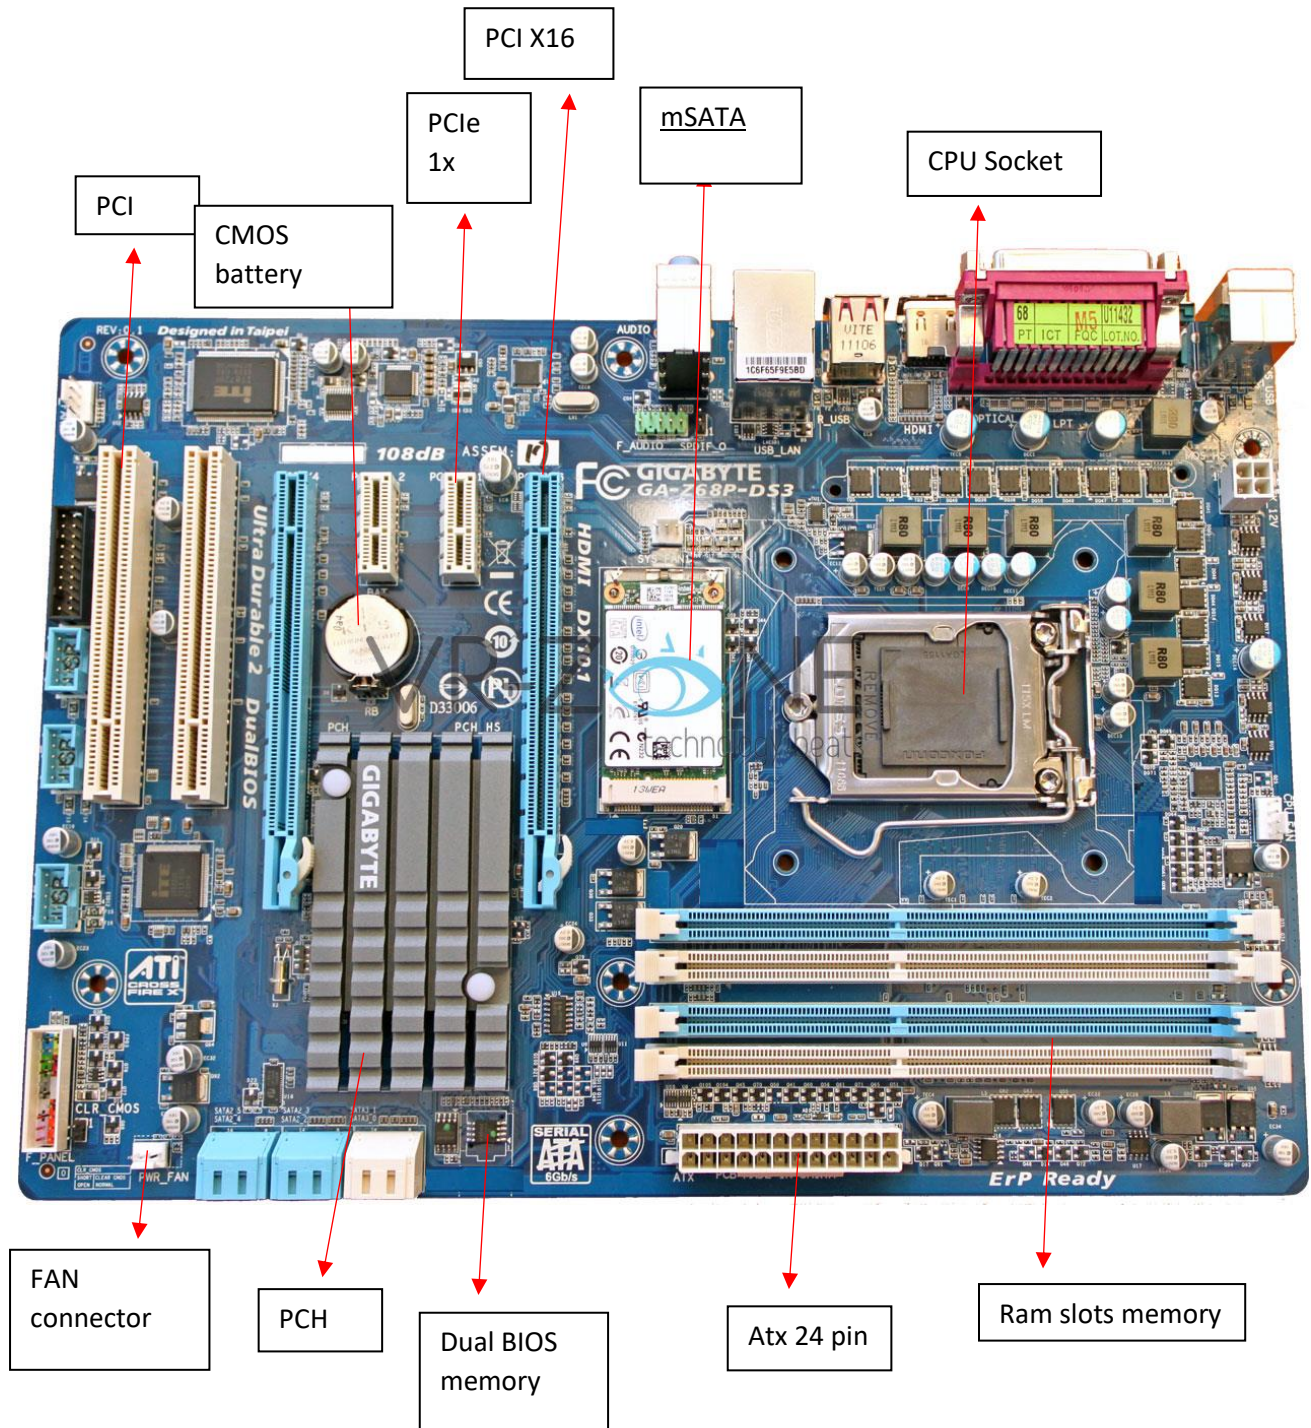

- |                           |                           |                             |
|---------------------------|---------------------------|-----------------------------|
| 1. PCI Express x16        | 11. 4pin fan conector     | 21.IDE Conector             |
| 2. PCI                    | 12. Capacitors            | 22.Floppy driver connector  |
| 3. PCI Express x16        | 13. CPU'S Lever           | 23.Capacitors               |
| 4. PCI Express x16        | 14. CPU Socket            | 24. SATA connector          |
| 5. PCI Express x16        | 15. Northbrige            | 25. SATA connector          |
| 6. PCI Express x16        | 16. Slot RAM Memory       | 26. CMOS memory (BIOS)      |
| 7. PCI Express x16        | 17. Slot RAM Memory       | 27.CMOs battery             |
| 8. 3 pin fan connector    | 18. SCREW hole            | 28. 3pin case fan           |
| 9. audio Header           | 19. 24pin ATX power conn. | 29. System panel connectors |
| 10. Extra ATX 8-pin       | 20. 3pin case fan         | 30. 3pin fan                |
| 31. usb header            |                           |                             |
| 32. usb header            |                           |                             |
| 33. usb header            |                           |                             |
| 34.1394 header            |                           |                             |
| 35.eSATA/USB combo header |                           |                             |
| 36.COM header             |                           |                             |

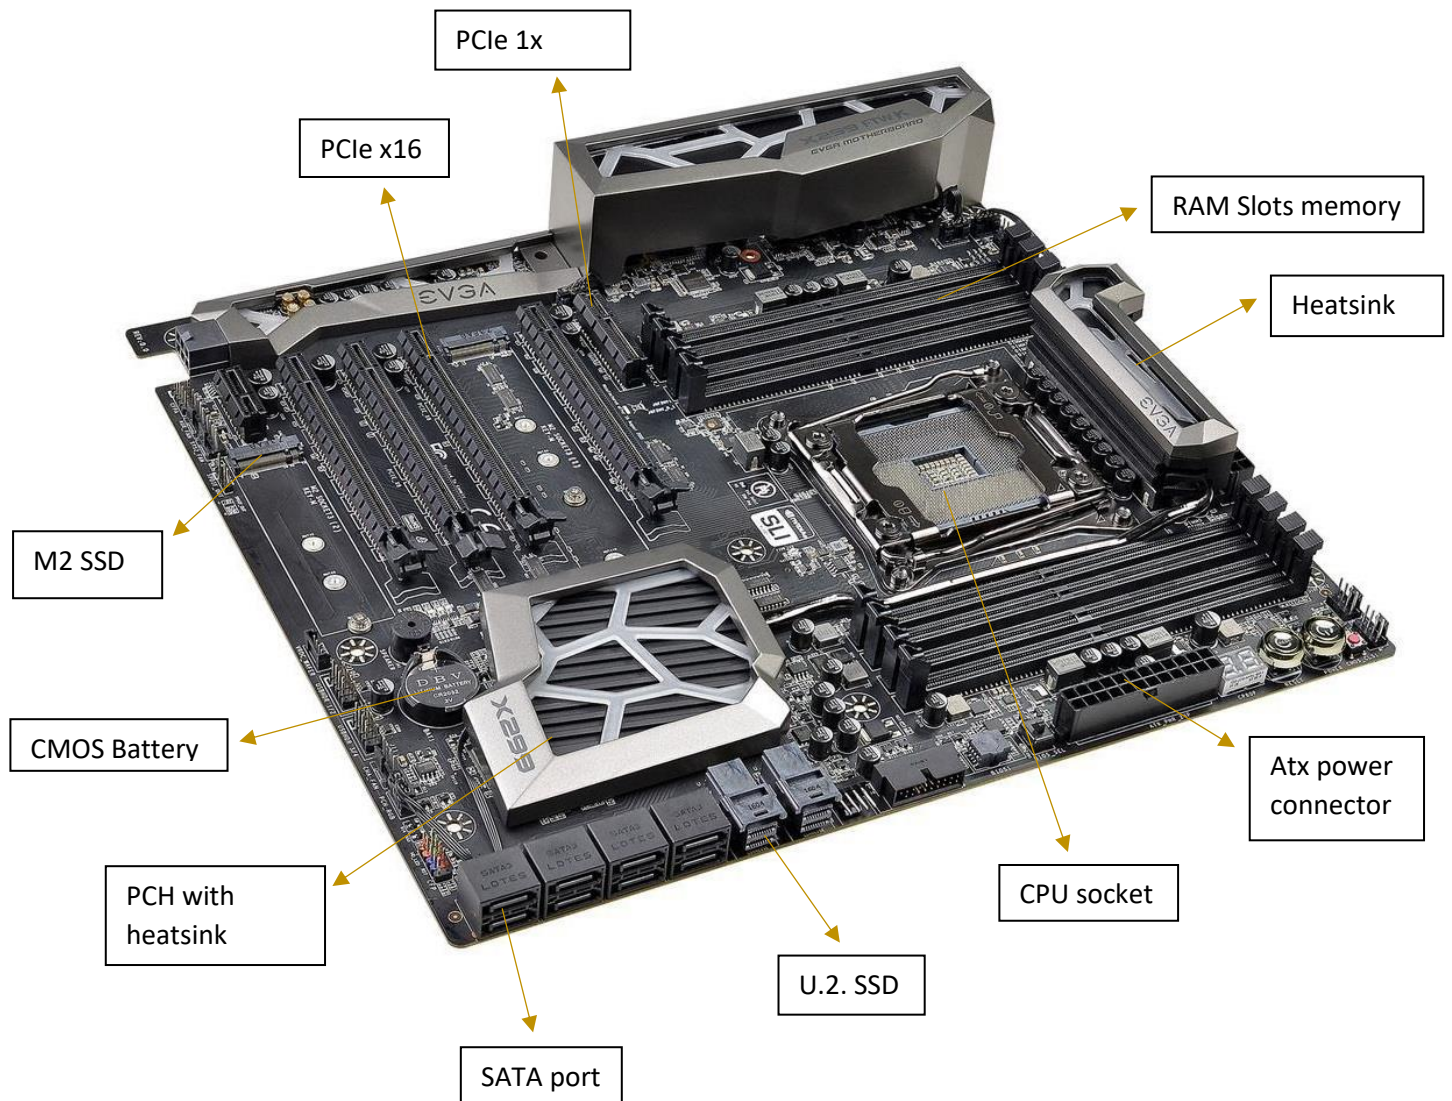

1. PCI
2. PCIe x1
3. PCIe x16
4. Rear panel ports
5. 8 pin power
6. CPU Socket
7. RAM Memory Slots
8. 24pin ATX power
9. CMOS battery
10. Northbridge
11. Sata
12. USB

Number 4

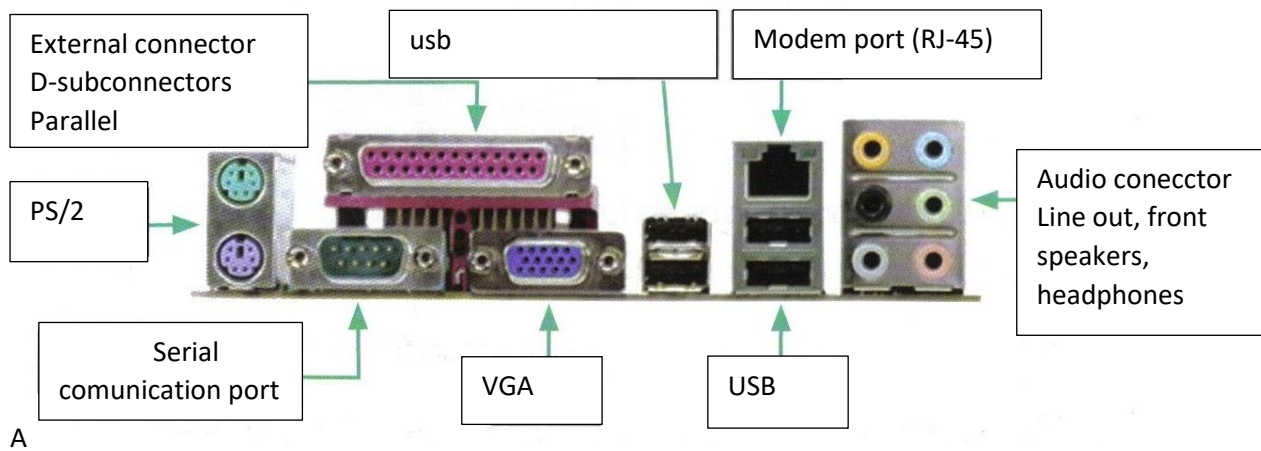

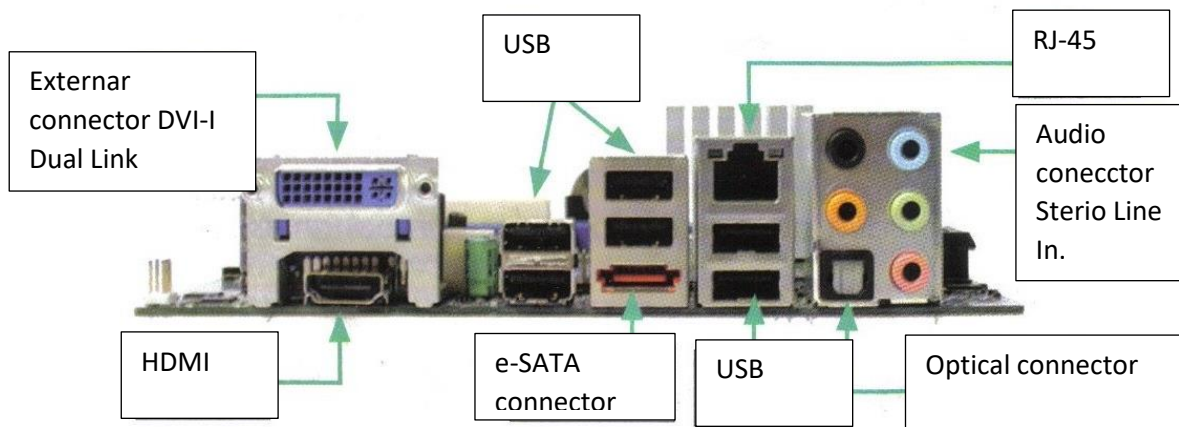

## 2. Identify the external connectors in the following pictures

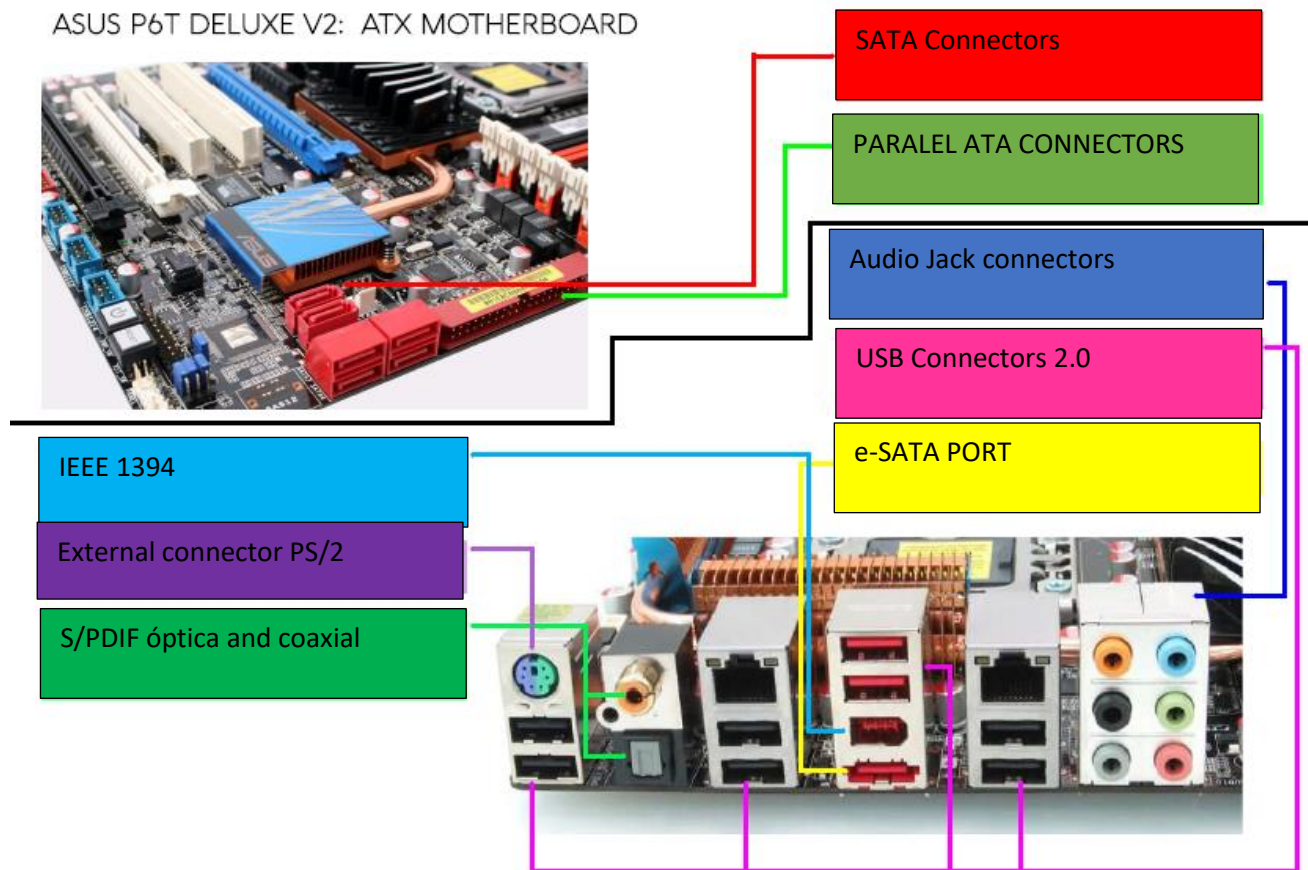

### Number 1

### Number 2

ASUS P6T DELUXE V2: ATX MOTHERBOARD

Number 4
